

PONCA TRIBE OF NEBRASKA
TRIBAL COUNCIL

RESOLUTION 10- 29

WHEREAS: The Ponca Tribe of Nebraska is a federally recognized Indian Tribe (P.L. 101-484) whose business affairs are conducted by the Ponca Tribal Council as defined in the Constitution approved July 22, 1994 by the Acting Deputy Commissioner of Indian Affairs; and

WHEREAS: Pursuant to the Constitution of the Ponca Tribe of Nebraska the Ponca Tribal Council exercises legislative powers to enact and promulgate resolutions and ordinances subject to all express restrictions upon such power contained in the constitution; and

WHEREAS: Vitamin D deficiency is rising among pregnant women and is associated with preeclampsia, a condition that begins in the second half of pregnancy. Preeclampsia causes high blood pressure, retention of fluids, and swelling that often results in the baby having to be delivered early to protect the mother's life.

WHEREAS: In an effort to improve pregnancy outcomes of women in the Ponca community, recruitment of first time pregnant women will take place through advertisement and staff identification of potential participants meeting eligibility requirements;

THEREFORE, BE IT RESOLVED that the Ponca Tribal Council supports the collaboration between the staff of the Ponca Tribe of Nebraska Health Programs and the University of North Dakota research staff.

CERTIFICATION

THIS IS TO CERTIFY AND AFFIRM that the above and foregoing Resolution was duly authorized and passed by the Tribal Council of the Ponca Tribe of Nebraska on the 7 day of June 2010 at a duly called meeting held in Norfolk, Nebraska by a vote of 5 Ayes; 0 Nays; 0 Abstained; 3 Absent. Chairperson _____ voting ✓ not voting. A Quorum of 6 was present.
